About my

I am a full-stack developer with over 30 years of experience in finance and management. As a finance expert, I have led teams, managed budgets, and designed successful financial strategies. Now, as a full-stack developer, I can apply those skills to design efficient and cost-effective software solutions. I have strong technical skills in programming languages such as HTML, CSS, JavaScript, Python, and Java, and in frameworks such as React, Node.js, and Flask. Along with my soft skills that are fundamental to good performance in any job: effective communicator, leadership and problem-solving abilities, and always seeking ways to improve. I am a reliable team player and an enthusiastic leader, and I am passionate about working on innovative and cutting-edge projects. If you are looking for someone who can provide a unique combination of technical and leadership skills, look no further. I am confident that I can make a valuable contribution to your team and take your company to the next level.
